ABOUT

I am a Web Developer. My work involves building and optimizing interactive features of websites and web applications, contributing to the success of the end product. Take a look at some of my diverse projects in the Portfolio

My development skills are focused on cross-browser development, ensuring compatibility and optimal functioning of web applications across different browsers and devices. This includes effective adaptation of web applications for desktops, mobile phones, and tablets.

My ability to continuously learn and keep up with the latest technologies allows me to effectively meet the challenges of modern projects, ensuring flexibility and a high level of quality in development.

In my free time, I enjoy playing tennis and chess, which helps me develop strategic thinking and focus. Additionally, I love engaging in outdoor activities, which keeps me energetic and inspired for new projects.

Open to collaboration opportunities where I can contribute, learn, and grow. If you have a good opportunity that matches my skills and experience, don't hesitate to contact me.

EDUCATION

Magister, Mechanical Engineering   2010 - 2015
National University of Food Technologies, Kyiv
