ABOUT ME

I am Full Stack Engineer, my expertise spans creating engaging features for websites, web applications, and cross-platform mobile apps using React Native. Take a look at some of my diverse projects in the Portfolio.

I specialize in cross-browser and cross-platform development, ensuring web applications function optimally across various browsers, desktops, mobile phones, and tablets.

My ability to continuously learn and keep up with the latest technologies allows me to effectively meet the challenges of modern projects, ensuring flexibility and a high level of quality in development.

In my free time, I enjoy playing tennis and chess, which helps me develop strategic thinking and focus. Additionally, I love engaging in outdoor activities, which keeps me energetic and inspired for new projects.

Open to collaboration opportunities where I can contribute, learn, and grow. If you have a good opportunity that matches my skills and experience, don't hesitate to contact me.

EDUCATION

Magister, Mechanical Engineering   2010 - 2015
National University of Food Technologies, Kyiv

EMPLOYMENT

Full Stack Web Engineer   Jul 2023 - Present
Liberty Dev, Kyiv
Full-Stack Developer, dedicated to crafting user-centric solutions with a focus on both front-end and back-end development. Expert in creating responsive and user-friendly interfaces, ensuring cross-browser compatibility, and adapting designs for various screen sizes on the front end. Proficient in implementing user interface

logic and design principles. On the back-end side, skilled in server, database, and application logic development, ensuring seamless data flow and integration between front-end and back-end components. Experienced in using a wide range of frameworks and technologies to develop scalable, efficient, and maintainable web applications. I also do manual testing.

Skills: TypeScript, React, Redux, Framer Motion, i18next, Material UI, Git, GitHub, Node.js, MongoDB
